

EDUCATION

MGM College of CS & IT

Bachelor of Computer Application - CGPA: 9.38

Nanded, MH

June 2020 - August 2023

SKILLS SUMMARY

- **Languages:** JavaScript, TypeScript
- **Frameworks:** React.js, Next.js, Express.js, Node.js, SST, Fastify.js
- **Databases:** DynamoDB, PostgreSQL, MySQL, Firebase, Supabase
- **Platforms/Tools:** AWS Lambda, Serverless Architecture, Git, JIRA, Visual Studio Code
- **Technologies:** REST API Development, JWT, GraphQL, Commercetools, Shell/Bash
- **Soft Skills:** Excellent Communication, Problem Solving
- **Development Areas:** Full-stack Development, Front-end, Back-end

WORK EXPERIENCE

Full Stack Developer II | BLG Technologies | [LINK](#)

August 25 - Present

- Leading a small engineering team to build scalable full-stack applications using React, Next.js, Node.js, and GraphQL.
- Architecting reusable internal **npm libraries** to standardize UI components and shared business logic.
- Owning end-to-end feature delivery across frontend, backend, and cloud infrastructure.
- Working with Jenkins pipelines and AWS facets (Lambda, API Gateway) while managing PostgreSQL databases.

Software Engineer | Compose Tech Services | [LINK](#)

August 24 - August 25

- Leading the development of modular, high-performance web applications using React.js, Next.js, Node.js, GraphQL, and Commercetools.
- Designing and deploying serverless backend services with AWS Lambda, managing data across PostgreSQL, DynamoDB, and Supabase, and building RESTful and GraphQL APIs.
- Collaborating cross-functionally using Git, JIRA, and Shell/Bash scripts to support version control, task management, and automation.

Software Engineer | Wishapp Technology Pvt. Ltd. | [LINK](#)

Sept 23 - July 24

- Designed, developed, and maintained full-stack applications using React.js, Next.js, Node.js, GraphQL, and Commercetools.
- Built and optimized RESTful APIs leveraging Serverless Architecture with AWS Lambda for robust and scalable backend services.
- Integrated JWT-based authentication and utilized DynamoDB for high-speed, serverless data storage.

Full-Stack Developer Intern | Fossip | [LINK](#)

March 23 - Sept 23

- Developed responsive applications using Next.js, Tailwind CSS, Material UI, and Firebase.
- Integrated frontend with backend APIs and improved real-time user interactions.

Web Development Intern | TwiLearn EduTech Pvt. Ltd. | [LINK](#)

Oct 22 - March 23

- Built React and Node.js features for an EdTech platform.
- Assisted with backend logic and frontend enhancements in an agile environment.

PROJECTS

Treebo Hotels | [LINK](#)

July 24 - Present

- Contributing to full-stack development of internal applications for Treebo Hotels, supporting operations across a large network of budget and mid-segment properties in India.
- Building and maintaining web applications using Next.js and React, managing AWS deployments to ensure performance and high availability.
- Delivering features that enhance booking and property management workflows while monitoring key performance metrics for reliability.

Kitchen Warehouse | [LINK](#)

Oct 23 - July 24

- Contributed to both frontend and backend development of a high-traffic retail platform using Frontastic, Commercetools, Next.js, and Node.js
- Developed and customized storefront components using Frontastic and implemented backend services for data handling and API integration
- Worked on improving server response time and ensuring a smooth user experience across desktop and mobile
- Participated in bug fixing, performance tuning, and cross-functional team collaboration throughout the development cycle
